

HEY, these are my 5signals

why I think I'm the right fit:

01. Self-taught, self-driven, talented

For more than 10 years, I have been self-studying various areas of computer science [on my own](#), and I am eager to keep growing my knowledge. I welcome new challenges, learn quickly, and I find it easy to organize my work.

02. Web apps, databases, infrastructure, UI/UX, ...

It is unusual to find someone without working experience, who [possesses a level of knowledge and understanding in different areas](#), such as back-end, front-end, databases, UI/UX or virtualization of bare metal servers.

My broad understanding will suit best for your small teams approach.

03. GitHub projects, personal blog

My [GitHub](#) is rich in +10 interesting [projects that prove my skills and abilities](#).

One of my notable projects is a dockerized Rails REST API [job board](#) with 97% test coverage and < 100 ms response time for main endpoint returning job offers.

Additionally, you can check out [my personal blog](#) and my [design portfolio](#) on Dribbble.

04. Why SIP internship?

I am interested in [focusing mainly on back-end](#). The SIP role requires a much broader view of the system as a whole, and with my skills and aptitude, [I will quickly adapt to this role](#).

05. Why 37signals?

I am constantly seeking new challenges and pushing the boundaries of my capabilities. That's why [I am pursuing new opportunities and applying to 37signals](#), which is known for its innovative and industry-leading approach.

I am certain I will [make a positive impact on the company](#).

I am looking forward for your signals,
Maciej Biel
